

RESOLUTION

No. 4(1) XI 2022

The Central Revolutionary Committee
of Internationalist Revolutionary Communist Party
in the process of formation
issued the 'Resolution'
regarding to social - economical and political situation,
with anti - social actions
of the British government
and the ongoing process of impoverishment
by rising living costs
with the increasing profits of capitalist bourgeois

The Central Revolutionary Committee of the Internationalist Revolutionary Communist Party, deeply condemns the anti - human social politics of the British Government and expresses its opinion.

The IRCP expresses its deep concern, about the deteriorating living conditions of the working masses in the UK. Food prices have increased by 15 percent annually. The energy prices are 27 percent higher than the summer this year price cap, and 96 percent higher than the winter season 2021 / 2022 of the price cap. A colossal jump in gas prices increased by 141 percent since winter 2021. The UK inflation rate jumped up to 10,1 percent in September 2022 from 9,9 in the previous month of August.

The British government's so - called '*anti - crisis plan*', is nothing more than a tragicomic farce, and the siphoning off of public money to capitalist energy companies and corporations, under the guise of a '*program to help families*'. Corrupt and having no idea, of how to save the collapsing economy, a gang of capitalist idiots, endorsing the equally discredited bullying ideology of Toryism, are trying to steal as much as possible before leaving the government.

Tory government, as a main driver of British capitalism, after 12 years of rule of exploitation, the vulnerable and oppressed the British working class with many attacks on workers and their rights to live in wealth, brought just only austerity with a massively deepening socio - economic and political crisis. The crisis we face in the UK, is part of the global crisis, of the imperialist and capitalist world system. It is a crisis, of discredited and the psychopathic idea, that the basic necessities of life, can be privately owned and that some people are more entitled to food, water and shelter than others. It is capitalism as an idea, of social divisions into better and worse social classes, according to the wealth that is gained in thieves' speculation and on the blood and exploitation of the working class.

The implementation of this mindless and uneconomic plan called '*mini - budget*', by British former prime minister Liz Truss, will deepen the struggle of British families with rising prices. The cost of living continues to rise as British families become impoverished. With the same trend of the increasing poverty of the working masses, the profits of capitalist companies and corporations are growing, which, by their greed for the highest possible profits, conduct anti - human economic policy at all costs, disregarding the human needs and material level of society in terms of its purchasing power.

Among them, the leaders are companies supplying and selling the essential economic utilities: gas, electricity and fuel. In the same time, this bunch of economic Tory morons, full of lust for profit for themselves with their loser - former Prime Minister Liz Truss and new UK working class enemy - Rishi Sunak, behind the veil of aid and pretend of the helps to British families, bring through the '*back door*' an expansion of speculation, high taxation, money printing, interest rate hikes, and so in reality there is an attempt to shift the costs of the crisis to the poorest, to the working class with mass the rich ruling classes richer.

The Conservatives' £45 billion tax cuts in the nonsense economical plan, of the mini - Budget for the UK, is nothing to ease the lives of the low earners, ignoring the millions on the minimum wage with unemployed and so many who have retired. The plan of '*economical disaster*' from the past and also current Prime Minister - Rishi Sunak, leave British society struggling with living conditions and working until they drop. The plan of their '*preaching of liberal ideas that entertain the world and people*' is to give more cash from public funds to the bankers and fat - cat energy suppliers, than before in any UK budget ever! The financial politics of corrupted UK bourgeois ruling classes will see many of the richest almost £10, 000 richer.

In this liberal '*casino economy*' of the British Government, will create from public funds more holiday homes for the rich, fever locals for the locals oligarchs and elites, in the same time of sending the Pound into freefall, and the cost of government borrowing soaring

The former Prime Minister Liz Truss so – called: *'mini – budget'* programme was in fact a big fake, and was pretending wishes to help the ordinary peoples, is nothing more than an imaginary lie designed to deceive British society, and calm the public mood during the government's anti – social policies. Especially comical is the expression of false concern and great interest in the fate of the nation, as shown by the government media on the part of Britain's new feudal ruler, King Charles.

If the British monarchy is genuinely concerned about the progressive poverty of its people, let it hand over some of its twenty homes that King Charles owns to the homeless for example.

The recent change in the post of Prime Minister of Great Britain will not change anything. It is a purely *'cosmetic'* procedure and has nothing to do with democracy. It is a bourgeois democracy, through its financial elites from the City of London, as they dictates who, and for how long is to be the prime minister in the UK, not the popular masses. Talking about British democracy and free elections, is a tragicomic farce, as Prime Minister Shunak was elected with the support of **0.0005%** of the UK population, which is the parasitic elite of British society.

Moreover, the class of social parasites represented by the groups, descended from the so – called *'royal family'* headed by their leader King Charles, have never, in the past or now, done anything good for the benefit of British society at large, both nationally and internationally, on the contrary, apart from the merciless plunder of the working masses in the stolen taxes for their livelihood, and a life full of luxury and wealth, they have always presented a socially hostile policy of inequality and division with racism and scandals, and manipulation of the mass media in the creation of a great legend and ethos.

The British working class, the popular masses and all people of hard work in the UK, deserve that the fruits of their labor be shared among themselves and bring them benefits and continual improvement in their lives, rather than being stolen from the social class of parasites and so – called: *'aristocracy'*, who think themselves are better than ordinary people and do not have to work, because that is how they established themselves in feudal social relations, that were a relic of bygone historical epochs.

We in IRCP, believe that in the current political situation in the UK at the moment, no political party on the left, and of course our class enemies on the right, of the political scene expresses the interests and aspirations of the working classes. The British left is a social democratic mixture of modern revisionist organizations, that claim to be *'a Marxist – Leninist'* party, but are in fact either petty – bourgeois groups with petty – bourgeois mode of thinking, or lowly dead pseudo – parties and clubs of *'mutual adoration'*, that do nothing to actively raise the level of class consciousness, and active organizes the British working class, the popular masses for the class struggle, fight for socialism. The Labour Party, is the largest historically compromised and corrupt organization, constantly politics of *'class collaboration'* instead of class struggle. The Labour Party, is in fact an organization of British ruling class servants, and bourgeois puppets to deceive working people. So, IRCP will not endorse any political party or organization in the short term future, timely or early parliamentary elections, because at the moment there is no socio – political power in the UK, that truly represents the interests of the British working masses. The IRCP will, in conjunction with its political program, use the methods of the People's Civil War, to overthrow the undemocratic and capitalist government of corrupt liberal elites, and establish a dictatorship of the proletariat, a government of representatives of the working – class, of the working masses.

IRCP notices the process of sharpening class struggle and objective conditions, that are maturing to the revolution. It must be said, however, that the subjective factor for the socialist revolution, which is on a very small level, and is expressed in the class consciousness of the British working class, is still not sufficient. Therefore, the IRCP will intensify its ideological and propaganda work for the growth of class consciousness, and the education of the working masses, in order to prepare the full conditions for a socialist revolution.

Only socialist revolution, with the taking over of the means of production by the working class, and the establishment of the dictatorship of the proletariat, it can bear the present and subsequent economic and social crises, eliminate social inequality and imbalance and achieve harmonious development in all the material, mental and cultural and political aspect of life of the working masses.

The IRCP is open to cooperation and joint action only with those political forces, whose practice and daily action confirm the theory of their revolutionary and truly communist program, in the struggle for the liberation of the British proletariat, the British people's masses from the yoke of exploitation and oppression of the capitalist system.

Only socialist revolution, with the taking over of the means of production by the working class, and the establishment of the dictatorship of the proletariat, it can bear the present and subsequent economic and social crises, eliminate social inequality and imbalance and achieve harmonious development in all the material, mental and cultural and political aspect of life of the working masses.

**ENOUGH OF EXPLOITING AND ROBBING BRITISH SOCIETY
FOR THE PROFIT OF THE CAPITALIST'S PARASITES!
LONG LIVE BRITISH SOCIALIST REVOLUTION!**

Comrade 'Kim'
Temporary General Secretary
Central Revolutionary Committee
of Internationalist Revolutionary Communist Party
